

Alabama State Port Authority
Addendum to R&P or Specification Booklet

Project Name Inter-Terminal Connector Between MCT & ICTF

Project No. 11165 **Task No.** 01 **Addendum No.** 1

To: Prospective Bidders **Date:** 6/11/2024

The following items are clarifications to questions received. These items are hereby included in the bid documents by this addendum.

Item	Description
1.	The Pre-Bid sign in sheet is attached and is hereby incorporated into the bid documents by this addendum.
2.	Question: Will Asphalt Fuel Index pricing be used on this project? Answer: No.
3.	Clarification on TWIC Requirement: The Mobile Container Terminal (MCT) operated by APM is a TWIC-controlled facility. Any work happening inside the fence-line (e.g. establishing the temporary industrial security fence) must be directly supervised by at least one TWIC-holding individual. This individual must be identified ahead of time so APM may grant that TWIC-holder "TWIC Escort" privileges. The TWIC Escort is allowed to supervise up to 4 other (non-TWIC holding) individuals. If the work crew will consist of more than 4 people, the contractor will have to identify another TWIC Escort. After the temporary industrial security fence is satisfactorily completely established, the remaining work will be performed outside of the TWIC-controlled area. The TWIC Escort requirement is no longer needed.
4.	Note on Airport Clearance: Airport Clearance is needed. It takes 45-60 days for a response. The website is: https://oeaaa.faa.gov/oeaaa/external/portal.jsp
5.	Note on Scheduling and Weekend Work: All work impacting traffic along Ezra Trice Blvd, the Railroad, and Yeend/Baker St must be scheduled in advance and coordinated with ASPA, APM, the Terminal Railroad, and MAWSS. Work requiring temporary road closures must be completed on weekends when impact to traffic is lowest. Weekend work must be coordinated with the Port Authority, MAWSS, APM, and Terminal Railroad in advance.
6.	The aerial video presented during the Pre-Bid meeting can be found at the following link: https://youtu.be/3aXiWhzJ1LI

Please indicate your receipt of this addendum by adding the addendum number in the appropriate place in your Requisition & Proposal or Specification Book.
