The Details That Matter

The most efficient solution for regional connectivity to ensure cargo is where it needs to be, when it needs to be there.

Reliable, Capable, and Connected.

Efficiently moving cargo to its final destination is critical. With Montgomery ICTF, you can optimize your supply chain process. Our new multi-modal facility offers 25,016 feet of track served by CSX Intermodal. Our inland port is conveniently located near Interstate 85 and Highway 31 on the Southeast or East Coast. Our facility operates from the day side Monday through Friday and runs importing and exporting trains five days a week. By choosing Montgomery ICTF, you can save time and money while moving your cargo quickly and efficiently.

Facility Equipment

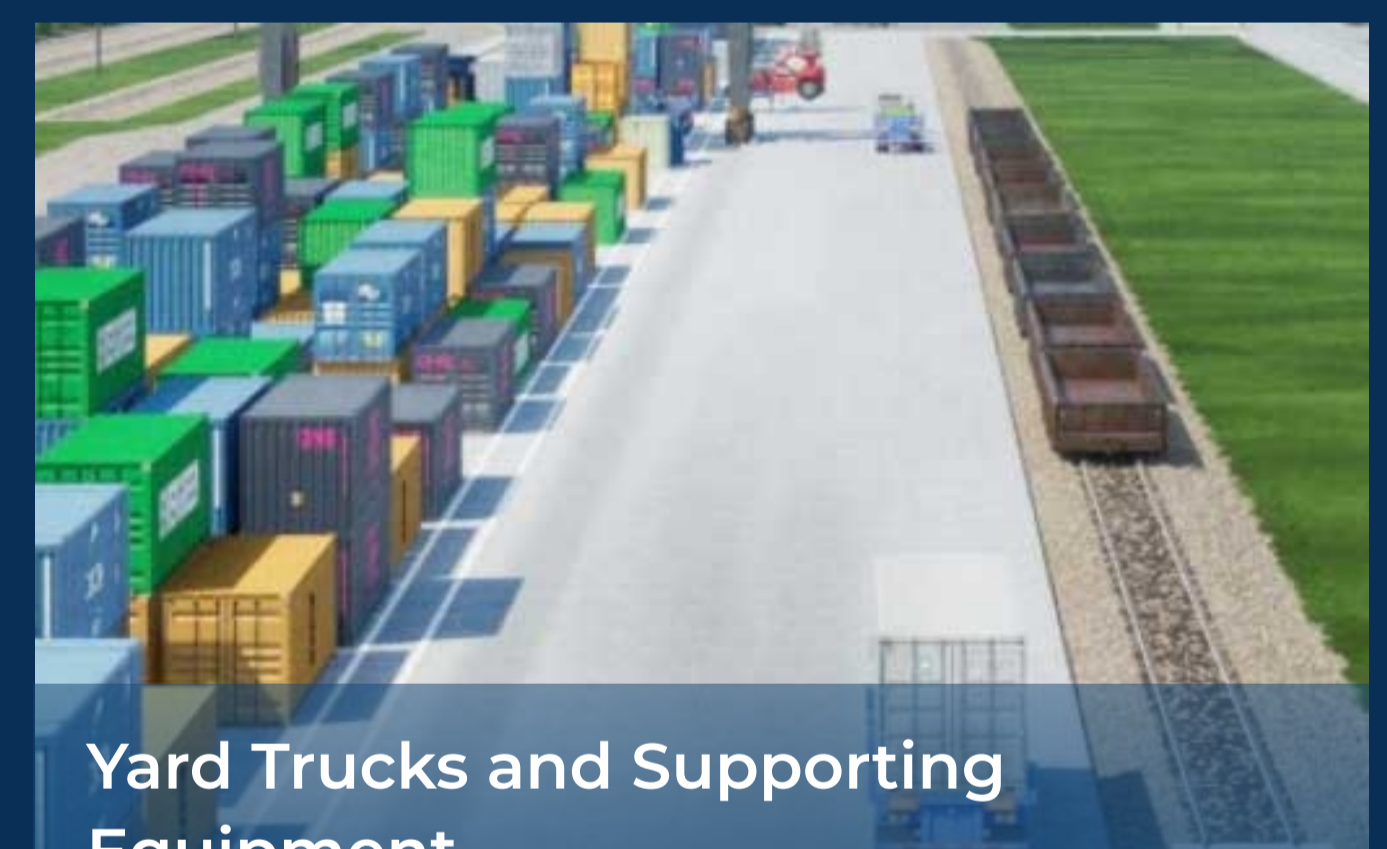

Reach Stacker

The new facility will have two Reach Stackers on site.

Rubber Tire Gantry Crane

Two Rubber Tire Gantry Cranes will be on site for loading and unloading.

Yard Trucks and Supporting Equipment

Facility yard trucks and supporting equipment will be at the facility for operations.

Site Plan
